My Dear Sir

Your valued favor of 27th enclosing check for \$482 66/100 is recd. For which you will please accept our thanks for this and the many other favors conferred on us. There is still much to do, the demands on the commission have never been larger. The rebel government are about played out, by Nov we may hope that our armies will be in such a position as to force them to abandon their cause as hopeless. With Rosecrans' army in Georgia, Grant in Mobile and up the Alabama, Burnside entering Virginia through East Tennessee and a large army in eastern North Carolina the game will be up with them. Very truly yours
